

Get Outdoors Fund

Overview

Established in 2020, the Virginia's Outdoors Foundation's Get Outdoors (GO) Fund provides grants for projects that increase access to safe open space in Virginia's communities. Some examples of costs that can be covered include planning, capacity building, programming, and infrastructure, although priority will be given to shovel-ready projects with tangible, measurable results. The intent of the program is to serve as a flexible, adaptable tool to be used to address communities' needs.

Calendar

Two grant rounds are held annually, with requests for proposals announced in January and July each year, and grant awards made in June and October or November. Grant agreements have a two-year lifespan.

The GO Fund requires the submission of a short pre-application. Pre-applications most aligned with program parameters will be invited to submit a final application. Invitations to apply for the GO Fund will be sent within one week of receipt of a successful pre-application. The responses provided in the pre-application will be incorporated in and elaborated on in the final application.

Applicant Eligibility

GO Fund grants may be awarded to state, local, regional, or tribal government entities, educational institutions, or non-profit organizations registered as tax-exempt under the Internal Revenue Service code, <https://www.irs.gov/charities-non-profits/exempt-organization-types>. Federal governmental entities, for-profit entities, and individuals are not eligible at this time.

Applicants who have received past GO Fund grants of more than \$5,000 must complete the approved project before submitting additional requests.

Funds Available

VOF has funding available for proposals that increase access to safe open space in Virginia's communities, especially those that are underserved. The amount of funding available for each grant round is determined annually and announced in June or July. Funding requests are capped at \$25,000. Funds will generally be disbursed through a reimbursement process, though \$5,000 in starter funds are available to all approved projects, and funding may be advanced upon the provision of invoices, signed contracts, or other binding documentation of future expenses. No funds will be paid directly to a vendor. Partial funding is possible.

Project Eligibility

VOF may provide funding for studies, planning, concept development, capacity building, programming, and infrastructure to enable safe use of or access to public open space, as well as for land acquisition. Priority will be given to shovel-ready projects with tangible, measurable results. Projects that seek to acquire or convey an interest in real estate (such as land acquisition, easement protection, lease agreement, or a right of way) should consider applying for a grant from VOF's [Preservation Trust Fund](#) program which can be accessed at www.vof.org/protect/grants/ptf/.

Application Process

Applications are accepted through the VOF [online grant portal](#), which can be accessed at <https://www.vof.org/protect/grants/go/>. VOF requires a pre-application to be submitted for review before a final application for funding may be submitted. Interested applicants should check the website for updates. Please email grants@vof.org with any questions about the application process or project eligibility.
